

iScience

discover the biodiversity around you

A schoolyard science program where students become citizen scientists by using a smartphone app to learn about the plants and animals around them

DLiA
Discover Life in America

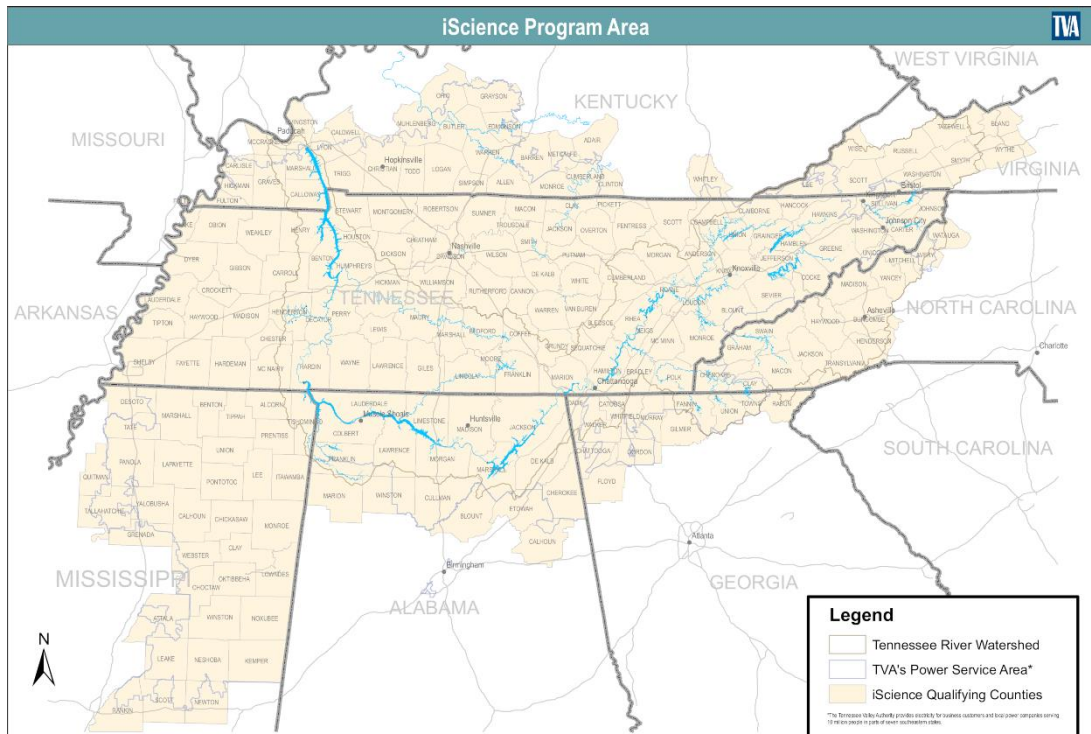

HIGHLIGHTS

- Available to qualifying grade 5-8 classes
- Students document life in their schoolyard with the **iNaturalist** smartphone app
- DLiA and TVA provide classroom kits, resources and assistance
- Students connect with nature and learn scientific observation skills

REQUIREMENTS

- Qualifying schools must be located within TVA iScience Area
- Must commit to the program for 3 years
- Must set up your own project on iNaturalist (with DLiA's help)
- See dlia.org/iscience for hi-res map, additional requirements and information
